Skills

Python | Flask | HTML | CSS | JavaScript | MySQL | Pandas | NumPy | Matplotlib | Git | Data Structures & Algorithms | Machine Learning

Work Experience

Synapses SOFTWARE ENGINEER	Feb'23 - Present
- Working on the user interface of Live project (Ananda himalayas) and Integration of Backend using NodeJS, Debugged the code breaks and testing of API. - Key Skills: MERN, firebase	
Vyorius FULL STACK DEVELOPER INTERN	Aug'22 - Oct'22
- Build responsive dashboard using ReactJS and Redux and implemented map-box for drone data visualization. - Added features of image, video, point cloud visualization and annotation and created API for converting videos into frames. - Key Skills: React, Redux, MaterialUI, NodeJS	

Projects

Give & Read – Book Sharing Platform | 2024

Flask, HTML, CSS, JavaScript, MySQL

- Developed a full-stack web application to enable students to **buy, sell, or donate old NCERT books**, promoting educational access and sustainability.
- Built core features like **book listings, user login, posting ads**, and direct contact between students using **Flask and MySQL**.
- Designed with a clean and intuitive interface, focusing on local peer-to-peer book exchange without delivery or payment systems.

MSME – CarbonTrack | 2025

Flask, MySQL, HTML/CSS, Bootstrap, Chart.js | Live: carbontrack-1mvx.onrender.com

- Developed a full-stack web platform for MSMEs to log carbon-emitting activities and monitor emissions across categories like fuel, electricity, and transport.

- Built AI-powered module for personalized carbon reduction suggestions based on user data.
- Implemented interactive summaries with charts and downloadable PDF reports with category-wise CO₂ analysis.
- Responsive UI with sidebar navigation, modals, and smooth data visualizations.

Training and Certifications

- **Responsive Web Design** – Certification from [FreeCodeCamp](#) (2021)
- **Python Programming** – Completed beginner-level course from Kaggle Learn (2023)
- **MySQL (Intermediate)** – Certification from [HackerRank](#) (2025)

Academic and Extracurricular Achievements

- Academic Achiever in all semesters.
- Was in top 1% **The Joy of Computing using Python** (NPTEL)
- Was in top 1% **Data Base Management System** (NPTEL)
